The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-24 rejected under 35 U.S.C. 102(a) as being clearly anticipated by Schneck et al. Note "image forming apparatus" (lines 46-48 in column 7) with "checking (see elements s1202, s1204 & s1212 of figure 12,) quality of an image to be formed" (intensity accuracy, fidelity and/or resolution i.e. quality is check, see lines 1-14 in column 43 and 4-16 in column 44).

Applicant's arguments filed 12-9-02 have been fully considered but they are not persuasive. Regarding applicant's argument that Schneck does not teach check means for checking quality, access controller checks rules to control access which include size, resolution and intensity, i.e. quality. See abstract and lines 4-12 in column 44.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2622

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
